Gkyzi 29, Artemida, 19016 | Military Service Obligations Fulfilled

SUMMARY

DevOps and Cloud Engineer currently holding dual roles at NN (Nationale-Nederlanden) in the Netherlands and VASS, with a strong foundation in cybersecurity. Experienced across the full infrastructure lifecycle. From serverless AWS architectures and CI/CD pipelines to threat intelligence and incident response. Proven in EU funded projects, financial services environments, and security critical systems, with a track record of delivering reliable, automated, and secure cloud solutions.

WORK EXPERIENCE

DevOps & Cloud Engineer at NN (Nationale-Nederlanden), Netherlands October 2025 - Present

- Designing and maintaining and upgrading cloud infrastructure and DevOps pipelines in a large scale financial services environment
- Collaborating with the rest of the company teams to deliver reliable, automated, and secure cloud solutions
- Implementing infrastructure as code and continuous delivery practices to support business operations while using new technologies
- Maintaining the supported services while upgrading them to the ever evolving security standards set by the company

DevOps and Cloud Engineer at VASS Company May 2023 - Present

- Contributed to EU funded projects with serverless architectures and AI technologies, consistently delivering on time
- Built automation tools and deployment pipelines, significantly improving deployment efficiency
- Implemented security best practices and collaborated with teams to enhance system protection
- Managed AWS infrastructure both serverless and not for scalable cloud solutions
- Identified and resolved critical bugs preventing potential security vulnerabilities
- Designed and maintained CI/CD pipelines using GitLab and Jenkins for automated testing and deployment

Cyber Security Analyst at Encode (Obrela Security Ind.) September 2022 - May 2023

- Proven expertise in network security, threat intelligence, and incident response, with hands-on experience in implementing and managing security technologies such as firewalls, intrusion detection/prevention systems, and SIEM systems
- In depth understanding of security threats and vulnerabilities, including malware, phishing and social engineering with strong analytical and problem-solving skills for identifying and mitigating security risks effectively
- Excellent communication and documentation skills, with experience in programming or scripting languages such as Python and Bash, skilled in Penetration Testing and Vulnerability Assessment
- Strong understanding of different operating systems and platforms, including Windows, Linux, and macOS

IT & Security Engineer at Alphaomegazed Ltd. March 2022 - August 2022

- Performed Vulnerability Assessments and Incident Responses to clients while consulting and acting with them towards ISO 27001 and 27701 Compliance
- Set up and configured an OpenXDR SOAR SIEM with their security sensors and integrated it with the client's Network HDLs, while also training the client to use it

IT Manager - Lieutenant, Computer Science Department, Army November 2020 - January 2022

- Oversaw IT daily department operations and training, wrote policy, procedure and manuals governing internal IT use while setting up and configuring the VoIP network of the island's army camps
- Interviewed, hired trained and mentored staff by coaching daily, leading performance reviews and offering constructive feedback, while playing a key role in ongoing network design, reevaluation and optimization to keep pace with company growth

Earlier Experience (E-Commerce & Sales roles) 2017 - 2020

Additional professional experience in e-commerce operations, online sales, and technical support since 2017.

CERTIFICATES & SKILLS

AWS	AWS Certified CloudOps Engineer (Pending), Certified Cloud Practitioner
Security	Stellar Cyber Certified Associate, Penetration Testing, Cybersecurity Foundations
DevOps	Terraform for AWS, Jenkins, Jira Service Management
Expert	Azure DevOps, Networking, Docker, CI/CD, System Administration, Agile Methodologies
Advanced	AWS, Linux, Terraform, IaC, Active Directory, QRadar SIEM
Intermediate	Azure, CDK, Cloudformation, GitLab Pipelines, AI Prompt Engineering

EDUCATION

MSc Computer Engineering, University of Patras, Greece

Hobbies & Interests: Hiking · Triathlon · Dungeons & Dragons · Beer Making
